

Fire Emergency Plan	
Management company	Express Networks 3 Residential Management Group: Tel – 0345 002 4444
Effective date of Emergency plan	May 2025
In the event of Fire	Action
How people will be warned if there is a fire.	An automatic fire alarm is installed throughout the building that will sound on detection of any fire.
If a fire breaks out in your home	Verbally raise the alarm by shouting “Fire” and break the nearest “break glass” call point. Warn all persons within your apartment and leave together. Where possible turn off your cooker or oven. Where possible close windows and doors, especially the front door. Do not attempt to put out the fire. Do not put yourself at risk. Leave the building by the nearest available exit and move a safe distance away from the block (at least 45m). Call the fire service.
If you see or hear of a fire in another part of the building	The evacuation plan for this building requires all residents to evacuate when the fire alarm sounds. You must also leave immediately if smoke or heat affects your home, or if you are told to do so by the fire service. If in doubt, get out and move a safe distance away from the block (at least 45m).
Hearing the alarm (relevant persons who may be elsewhere in the building)	Evacuate the building by the nearest available escape route – DO NOT USE THE PASSENGER LIFT. If you have visitors or contractors with you, instruct them to follow you. Leave the building by the nearest available exit and move a safe distance away from the block (at least 45m).
How will the emergency services be notified and who is responsible	The person finding the fire will dial 999 or 112. When the operator answers, give your telephone number and ask for FIRE. When the fire service replies give the address of where the fire is: Network Express 3, 6 Oldham Road, Manchester M4 5DB. Do not end the call until the fire service has repeated the address correctly.
Arrangements for the safe evacuation of people identified as being especially at risk	Details of any individuals with special needs may be kept near the entrance for easy identification by the emergency services.
Plans to deal with persons once they have left the premises	All evacuated persons should remain a safe distance away from the premises. No individual should re-enter the building for any reason until they have been instructed to do so.
